A. H. CURMINS. GET THE BEST.

An entirely new variety from anything ever before introduced, It is a bright, plump grein, almost one-half ch long, makes fine flour, has never had any Morrow's Pictorial Family Bible and Ensee incident to the wheat and on to no bushels to the screet premium at the Centennial. Pri I Packago..... Sample can be seen at this office.

S. L. MORROW & CO., Indianapolis, Ind. The Raden White Flour Corn.

This corn grows on stalks averagin 8 to 10 test in beight-the body of the stalk being a little heavier than the melium. The average length of the ear nine inches; the grains plump and o frading agriculturists to be the flam common size; perfectly white and flinty. It is hardy-not requiring as much work We want agents to introduce these valuable seeds everywhere. No trouble to see I. Send straight down in the ground, and consequently drought effects it very little. The tamp for sample and special terms. yield is double that of any other variety ver raised in America. It will produce n medium good corn land one hundred

bushels per acre This corn is from two to three weeks vicinity and hall continue to make dress on receipt of \$1.00. Order before the season is too far advanced. Address W. S. TIPTON, Seedsman Cleveland, Tennessee.

JNO. P. BARRETT. DISSOLUTION. Monday was county court day, and the prove satisfactory to those who will patof all the assets of the firm. All those indebted to the firm will call and settle with him; as he is alone author-
